- **Diane Krezelewski MB BS, DRCOG, MRCGP, DFSRH, DTMH**

Location

- Brackley is a pleasant market town situated 20 miles north of Oxford. The A43, connecting the M1 with the M40, gives Brackley excellent communications North to Towcester and Northampton, as well as South to Bicester and Oxford.
We are a semi-rural practice with patients from Brackley town and the surrounding villages set within the beautiful surrounding countryside.

Premises

- Our purpose-built surgery was completed in April 1994. It was extended in 1998 and further extended in 2010. A further extension is planned for 2019. We have a large meeting room/library with full audio visual facilities.

Computer Systems

- Our clinical system is EMIS Web. We have a surgery website and actively encourage our patients to use our online services

Dispensing

- Our dispensary serves approximately 3200 patients living outside Brackley.

Training

- Andy Rathborne, Harriet Campbell and Alexandra Davis are our GP trainers. The whole surgery has a learning philosophy and all staff take part in teaching and learning. All partners share in the training to

the benefit of both registrars and partners. We hold weekly practice educational meetings for our PHCT.

PHCT

- We pride ourselves on our excellent Primary Health Care Team, comprising three Practice Nurses, three Health Care Assistants, District Nurses and Midwife together with a full complement of administrative staff headed by our Practice Manager. We believe in a cohesive, friendly, team approach to patient care.
